

Understanding Your NCPPA Score Report

Overview

Your NCPPA Score Report provides your results for the task(s) that you submitted on the date indicated on your score report. If you submitted a task retake(s), your score report includes your new scores on the task(s) that you resubmitted.

Cautions. Your NCPPA Score Report is for your records only. This assessment was not designed to compare your performance to that of other candidates. Your score is used to compare your knowledge and skills to that required by the North Carolina Department of Public Instruction.

NCPPA Task Scores Summary

This section indicates the scores you have earned on any scored Tasks during this reporting period.

Task Scores Summary. This table displays your score for each NCPPA Indicator, Rubric, and Task you submitted for scoring during this reporting period.

Indicator Scores: Scored indicators receive a numeric score between 1 and 4. Any indicator score assigned a letter (e.g., "B") instead of a numeric score is an indication that your submission or portions of your submission are deemed unscorable in accordance with the NCPPA Submission Requirements. See "Incomplete Status and Condition Codes" below for more information. As indicated in the NCPPA Submission Requirements, any Task receiving a Condition Code *on any indicator* will be unscorable and reported overall as "Incomplete."

Rubric Scores: Each Rubric Score is the average of its collection of indicator scores. Note that the average value reported is truncated and not rounded.

Scored Rubrics receive a numeric score between 1 and 4.

Overall Task Score: Your Overall Task Score is the truncated (unrounded) average of all the Rubric Scores within that Task.

Scored Tasks receive a numeric score between 1 and 4.

Your Overall Task Score will have a status immediately following the score, if available.

When the overall Task Score is:	Status as displayed on the NCPPA Task Scores Summary area of your Score Report will be:
Not Available because the task was not scorable	Incomplete
A reported score because the task was scorable	Complete

NCPPA Score Summary Report

The NCPPA Score Summary Report presents the highest score you have obtained for each NCPPA Task attempted to date, and your corresponding NCPPA Summary Score.

All Tasks must receive a score of “Complete” in order to Pass the NCPPA.

NCPPA Summary Score. The NCPPA Summary Score is the average of the Overall Task Score values (best attempts) of all three submitted and scored tasks. Note that the average value reported is truncated and not rounded. If you received a condition code for any indicator, the Task in which that Condition Code was assigned would not be included in the NCPPA Summary Score. Please see “Incomplete Status and Condition Codes” below for more information on the “Incomplete” designation.

When the NCPPA Summary Score is:	Passing Status as displayed on your NCPPA Summary Score Report will be:
Not Available (not all Tasks were submitted and scored)	N/A
All Tasks were submitted and received numeric scores	Pass

Performance Description

If a condition code has been applied to an indicator, the description provides information indicating the requirement(s) not met. Please see “Incomplete Status and Condition Codes” below for more information.

Score Reporting

Your assessment results will be reported to the North Carolina Department of Public Instruction and, if applicable, the organization that you indicated as a score recipient when you registered.

Additional Information

Candidates who receive Condition Code(s) (indicating materials were not scorable), may re-create or revise materials for a retake that specifically address the reason(s) for receiving the Condition Code(s). See “What Should I Do if I Received a Condition Code?” below.

Incomplete Status and Condition Codes. Any indicator receiving a condition code will render the applicable Task “Incomplete.” The following scoring rules will be applied if you receive a condition code on any indicator:

- Each indicator for which a Condition Code is assigned will receive a letter, instead of a numeric score, indicating which Condition Code was applied.
- Any Rubric containing an indicator with a Condition Code(s) will be reported as Incomplete.
- All other Rubrics within an Incomplete Task will receive a Condition Code X, indicating that no numeric score was assigned, due to Condition Code(s) elsewhere in the Task.
- Any Task containing an indicator with a Condition Code(s) will be reported as Incomplete.

You will be required to retake any task(s) reported as Incomplete (receiving a condition code on one or more indicators) in order to receive an Overall Task Score and an NCPPA Summary Score.

What Should I Do if I Received a Condition Code?

If you received a [Condition Code](#), you should visit the [NCPA program website](#) for more information about next steps. These include:

1. Reviewing your rubric(s) that received a Condition Code with a faculty or program advisor.
2. Reviewing the Submission Requirements so that you understand how to correct your evidence for your rubric(s) that received a Condition Code.
3. Re-registering for the Task and submitting your updated evidence, correcting the Submission Requirement errors that you and your advisor identified.
